**WELCOME SUMMER AND A RAAVE JUNE PICNIC**

Greetings to all members! The weather is turning warm and the days long...definite signs of summer and picnic times!

We are having our picnic on Saturday, June 19 starting at Noon. We are meeting at the Huffaker Pavilion in Bartley Ranch Regional Park which is where we had our picnic in 2019. It is a lovely spot and we are allowed to bring our birds. It is an outside area where there are hawks, so if you bring your birds please keep them safe.

Due to the pandemic situation, this will be a brown bag (bring your own food) picnic. RAAVE will provide drinks...sodas, water, juices. Also, there are picnic tables under the pavilion roof, or bring a chair to sit on the grass. It will be a wonderful time to get together, so mark your calendars and be there!!!

At this time, we cannot meet at the River School Farm until Oct. So, we are planning meetings in Oct., Nov., and our holiday party in Dec. No meetings are planned in July or August. However, we are working on a Sept. meeting and we will have information about that in the next newsletter.

Looking forward to the RAAVE PICNIC!!!  
Rose Mueller  
Vice President

## President's Perch

Dear Members,

Hope your summer season is starting off healthy and safe for you, your family, and feathered friends. With hot weather and high winds comes the threat of fire to our region. Please take the time to review what you need to do to easily and safely evacuate if needed.

We are cautiously optimistic that we may be able to resume meetings as early as September. The River School Farm is not available until late October. If any of you are aware of any potential meeting halls, please let me or any board member know the details to see if it is a place that will work for our club.

The warmer weather also brings us outside to enjoy the sunny weather. Your feathered friend may be riding on your shoulder as you go outside to enjoy

your yard or visit with a neighbor. Don't take the chance your bird will stay on your shoulder, so put him back in his cage, or put him in a secure carrier, so you don't have to worry he'll fly up to a high tree or take flight away from your home.

Please review your estate planning and be certain you know who can care for your birds in the event that you cannot. Having a plan will make it a smooth process for your representative to carry out your wishes.

Many thanks to those of you have kept up with your dues and a big welcome to new members who have recently joined!

Sincerely, Norman Huckle RAAVE President

### Firework Safety Tips\*

- 1) **Keep** your bird inside
- 2) **Cover** your bird's cage
- 3) **Play music** to drown out sounds of fireworks
- 4) **Keep calm.**  
A calm you = calm bird
